

Sieg and Louise Silver

Louise and Sieg Silver, the very epitome of a loving couple, contributed in a most fulfilling way to the entertainment and education of young people in the Shuswap.

Sieg was a puppeteer, and a skilled artisan. Louise was an artist and a teacher of art. Everyone who was privileged to know them grew enormously from the relationship.

Gordon Priestman was a great friend of the Silvers, and was the person who wanted to write the memorial. Sadly, Gordon himself died before that chore was attended to.

So this little memorial lacks specifics. We hope that friends of the Foundation and of the Silvers will add details. We will up date this memory page as soon as we receive more information.

Thank you in advance for your interest.
